

Privacy Policy

Last updated: 2026-02-17

This Privacy Policy describes how the Spending Tracker application ("Service") collects, uses, stores, and deletes personal information and financial data.

1. Who We Are

- Business type: Sole proprietorship
- Service: Spending Tracker
- Contact: Replace with your support email before publishing

2. Data We Collect

- Account profile data: email address, display name, authentication settings.
- Financial connection metadata: institution name, account identifiers/masks, account balances.
- Transaction data: transaction date, merchant, description, amount, category, account mapping.
- Security and operational data: login events, request identifiers, basic IP/user agent metadata for security auditing.

3. Data We Receive via Plaid

- We use Plaid to connect financial institutions.
- We do not collect online banking credentials directly.
- Plaid access tokens are encrypted at rest before storage.

4. How We Use Data

- Provide core features: transaction sync, categorization, budgeting, reporting.
- Improve data quality: learned category rules and user-driven category corrections.
- Security and fraud prevention: authentication, logging, access controls, incident response.
- Legal compliance and recordkeeping.

5. Legal Basis and Consent

- We process data based on user consent and contract performance (providing requested features).
- Users are asked to authorize financial data access through Plaid Link and Data Transparency Messaging.

6. Data Sharing

- We do not sell personal financial data.
- Data is shared only with necessary processors/providers to operate the Service (for example, hosting/database and Plaid).
- We may disclose data if legally required (court order, legal process, or regulatory obligation).

7. Data Retention

- Data is retained only as long as needed for service operation, legal obligations, and security purposes.
- Retention and deletion controls are implemented and reviewed periodically.
- Users can request deletion; account-level deletion removes associated user-specified records.

8. Data Security

- TLS is used for data in transit.
- Sensitive tokens are encrypted at rest.
- Access to production systems is restricted and monitored.
- Security logging and incident response procedures are in place.

9. Your Rights

- Depending on your jurisdiction, you may have rights to access, correction, del

etion, portability, and objection/restriction.

- To exercise rights, contact: Replace with your support email before publishing

.

10. International Transfers

- If data is processed outside your jurisdiction, we use reasonable contractual and technical safeguards.

11. Children

- The Service is not intended for children under 13 (or equivalent minimum age by jurisdiction).

12. Changes to this Policy

- We may update this policy periodically.

- Material changes will be reflected by updating the "Last updated" date and, where required, direct notice.

13. Contact

- Replace with your legal business name and support email/address.
